## When I Hear Your Name

It's night, dark and cold  
I walk in the city, alone in the crowd

Every street, every store  
Is filled, with colors and smiles, as before

I know clouds, are hidden behind these faces  
Is there anyone who has a sunny heart?

I put on my headphones and play the song,  
Which repeats, the enchanting whisper

Husayn Husayn

Why is my heart set on fire when I hear your name?

Husayn Husayn

Why is my heart set on fire when I hear your name?

My phone rings like a storm  
The song's stopped, and again I'm back to the cold

A smiling face is on the screen  
But there's no room in my burning heart for icy  
words

I know clouds are hidden behind these faces  
Is there anyone who has a sunny heart?

I reject the call and again play the song,  
Which repeats the enchanting whisper

Husayn Husayn

Why is my heart set on fire when I hear your name?

Husayn Husayn

## When I Hear Your Name

Why is my heart set on fire when I hear your name?

Tell me more about yourself  
Tell me more about yourself

Husayn Husayn

Why is my heart set on fire when I hear your name?

Why is my heart set on fire when I hear your name?
