# My Angel

---

# My Angel

It's so hard for an innocent angel  
To breathe on the earth far from Heaven

But for my angel, it was much harder  
To see me here lost in the fire

O my angel  
You're melting my heart  
With your injured wings  
And scorched feathers

O my angel  
You're melting my heart  
With your gasping breath  
And bruised face

# My Angel

O my angel

My angel

O my angel

My angel

You save me and burn me again

In your love, such a beautiful pain

Have I met you anywhere before?

I feel I've known you a thousand years or more

O my angel

You're melting my heart

With your injured wings

And scorched feathers

# My Angel

O my angel

You're melting my heart

With your gasping breath

And bruised face

O my angel

My angel

O my angel

My angel

Your injured wings

Your scorched feathers

Your injured wings

Your scorched feathers

O my angel

My angel

O my angel

My angel
