# Talk to Me

Every night

I fight

Flames of fear

And You are here

Every day

I run away

Far and near

And You are here

Now I need to feel You

It's not enough to only believe in You

O my Lord

Talk to me more

Talk to me more

More

# Talk to Me

Talk to me more

Talk to me more

More

Every breath

I take

I wish to break

This circle of mistakes

Every word You say

Every word You say

Rains on my thirsty heart

Lights up this hazy way

Every word You say

Every word You say

Rains on my thirsty heart

# Like A Flower

Now I need to feel You

It's not enough to only believe in You

O my Lord

Talk to me more

Talk to me more
