ALLAH IS WITH US

You know well these are your last breaths
That's why you're struggling so hard
You're so weak you only fight our children
But you can't even defeat them at all
Unfortunately, you don't have a house anywhere
For us to shatter it on your head
But you better run away from our house faster
Before we bury you right here

Maybe the planes are yours
But the sky is ours
Maybe the tanks are yours
But the land is ours
Maybe the iron dome
The media and all the devils are with you

ALLAH IS WITH US

But the angels are with us
And the shining hearts are with us

But Allah is with us
Allah is with us
You've dug thousands of tunnels
To hide from our burning storm
We've dug thousands of tunnels
To ambush and hunt you down
This isn't blood in our veins
It is love and it is faith

This isn't a shout on our lips
It's thunder
You never know what you'll face
Maybe the planes are yours

ALLAH IS WITH US

But the sky is ours
Maybe the tanks are yours
But the land is ours
Maybe the iron dome
The media and all the devils are with you
But the angels are with us
And the shining hearts are with us
But Allah is with us
Allah is with us
But Allah is with us
Allah Allah
Allah Allah

Allah is with us
Allah Allah
Allah Allah
But Allah is with us
