KHAMENEI

He is our shield, he is our gun
He is the hand that holds us as one
The heart of our missiles that make tyrants
Hide in their holes until dawn

He is our fortress, standing tall
A loud voice, the echo of our call
He is the soul that never let's us
Break down and fall

Khamenei is not only a man
He is all of Iran—he is تو (you), he is من (me)
Khamenei ،The blood of وطن (the country)
He is all of Iran—he is تو (you), he is من (me)

KHAMENEI

Khamenei

The nightmare of the enemy

Khamenei

The nightmare of the enemy

The final steps to reach the peak

A bright star before the morning speaks

The truth is now clear for all to see

Let the crows caw and shriek

He is our fortress, standing tall

A loud voice, the echo of our call

He is the soul that never let's us

Break down and fall
